ABOUT ME

Motivated and adaptable Computer Science graduate with a strong interest in Software Engineering, Full-Stack Development, Frontend Development, and Artificial Intelligence. Skilled in modern web development with a solid understanding of software engineering principles and technologies. Strong problem-solving, analytical, and attention, along with the ability to learn new technologies quickly. Passionate about creating clean, accessible, and user-friendly software solutions while continuously improving technical and research skills. Seeking a Master's opportunity to deepen knowledge in Computer Science and Software Engineering, contribute to innovative projects, and grow as a professional software engineer.
